

ARIZONA STATE UNIVERSITY SPRING 2017 TRANSPORTATION SEMINAR

Save the Dates

Friday's this Spring, the School of Sustainable Engineering and the Built Environment will be hosting its Transportation Seminar in [Schwada Room 101](#), on the ASU Tempe campus. The speakers arranged for the Spring seminar their topics are shown below. Please plan to attend one or more of these exciting seminars, which begin at 3:00 pm with a 30 minute refreshments and networking, session followed by an approximately 45 minute talk from local and national speakers on far reaching topics of transportation. All seminars are free and open to the public so please distribute this flyer to anyone who may be interested ([public parking is available near the seminar room](#)). If you would like to add anyone to the weekly reminder emailer and receive more details on the speakers and topics email Shane Underwood (shane.underwood@asu.edu) or signup [here](#).

With over 50 faculty, Arizona State University is one of the largest and most diverse transportation programs in the United States with world renowned experts in engineering, planning, geography, economics, and business disciplines. Learn more about our faculty, programs, and research at transportationstudies.asu.edu.
