

TRANSPORTATION SEMINAR

An Overview of Recommended Security Guidelines for Airport Planning, Design, and Construction

Friday, April 14, 2017
3:00pm to 4:30pm

Please join us in Schwada Building (SCOB) room 101 

Lorena de Rodriguez

President, Safety and Security Instruction

A recent update to the guidance for the airport security planning and design community will be presented. This document was first issued by the FAA in 1996 and 2001, continued by the TSA in 2006 and 2011, and now is maintained by National Safe Skies Alliance as of 2017. Each iteration has had extensive contributions by federal agencies, industry trade associations, and individual architects, engineers, and security consultants. The Guidelines are a compendium of real-world experience and best practices developed by outstanding professionals in the field and used by airport operators and contractors worldwide. This talk will provide an overview of these guidelines and how they affect engineers and planners.

Lorena de Rodriguez is a trainer and consultant in airport regulations and their effects on airport security coordinators and aviation employees. Lorena is on the board of Airports Consultants Council and National Safe Skies Alliance and served as the 2014-15 ACI-NA World Business Partners Associate Board chair. She is an active participant TRB/ACRP and Safe Skies PARAS security research. Lorena completed the ACI Executive Leadership program at Concordia University; holds a Master of aviation management from Embry-Riddle Aeronautical University where she participates on the Industry Advisory Board for student academics. For ACI World, Lorena has been a guest instructor, and facilitated training classes in Korea, Panama, Dubai, and Switzerland and Nashville. She founded SSI, Inc (Safety and Security Instruction) to focus on curriculum and deploying web-based multimedia programs focused on providing security and safety, TSA, FAA, OSHA, ICAO, and DOT subjects to airport operators. SSI deploys training to more than 40 airports and delivers more than 1M training events a year.
