Dr. Jean (John) Nehme, P.E.
Arizona Department of Transportation (ADOT)

When - Friday, February 12, 2016, 3 - 4:30 PM

Where - CAVC 459 (PARKING)

Food & Drinks will be provided

Speaker

Dr. Jean (John) Nehme is the Director of “Performance Management and Research” overseeing the Arizona Department of Transportation’s Research Center and responsible for developing and implementing a transportation performance management program and an asset management system. Prior to his appointment to this position, he served as the State’s first Asset Management Engineer. Previously, he was the State Bridge Engineer for ten years responsible for the design, inspection and preservation of Arizona’s highway bridges.

Abstract

Participants in this seminar will learn some general information about the Arizona Department of Transportation (ADOT). The speaker will briefly cover the make-up of the agency and the functions that are within its authority. He will also report the progress of ADOT’s work on transportation system performance and how it affects the programming of transportation projects. A description of the ADOT Research Center and typical research projects will be discussed. This seminar is designed to be very interactive and the audience will benefit most by engaging the speaker on all topics that will be presented.
